BRETT REDD
SR BI DEVELOPER & ANALYST

SKILLS

- Alteryx/Tableau/PowerBI/DAX/SQL
- Excel/PowerPivot
- Python3/HTML(5)/CSS
- Data Cleansing/Modeling/Analysis

OBJECTIVE

☑ Diversified BI professional, skilled in support of IT systems oversight, process improvement, performance measurement, operations, financial forecasting, project mgmt., real estate site selection, and health care.

☑ Recognized for outstanding communication through the development of comprehensive dashboard reports.

☑ Strong desire to leverage my skill sets in a role with operational and strategic decision-making, while still adding value to my organization through my capability to develop reporting processes and write/model reports.

EXPERIENCE

WELLPATH
2022-Current

☑ Developed Tableau dashboards, end-to-end, in support of health care operational performance, claims management, patient wellness, 3rd party provider performance, pharmacy Rx distribution, and staffing.

☑ End-to-end development included the scripting and scheduling of stored procedures, views, and custom initial SQL modeling for Tableau Viz dev.

☑ Leveraged extensive Tableau viz techniques, including sets, parameters, LODs, action filters and parameters, custom shapes and color palettes, etc.

☑ Managed Tableau Server user admin groups & refresh cadence.

MISC
2019-2022

☑ Filled multiple roles, FT and contract, over a 3 year span, in an effort to find a position where the work is fulfilling, and I am able to deliver the highest value to my employer on a long-term basis. Many of these roles were accepted to merely provide for my family, and did not align with my long-term goals to work in a developer capacity. Please reference my work detail for additional info.

CBRE
2010-2019, 2021

☑ Developed dashboards (Excel 2010-2015, Tableau 2015-2019) to support the project mgmt service line, delivering insights into KPI performance (project, regional, account, exec levels), trends, value, volume, geographic/industry/property type distribution, cash flow, staffing, schedule/progress, value creation, customer sat, etc.

☑ Recognized on multiple occasions for employing best practices to:

- Shape/model data into meaningful visualizations
- Monitor and measure data quality
- Monitor/Forecast cash flow & staffing
- Develop processes to acquire data for accurate analysis.
